Speedometer Calibration Services

9 Jay Street, Old Tappan, N.J. 07675

201-664-7759

10 September, 1993

Chief Russell C. Minuto
Westampton Police Department
Rd. #1, Rancocas Road
Westampton, N.J. 08060

Dear Chief Minuto,

In response to your recent request, I offer the following:

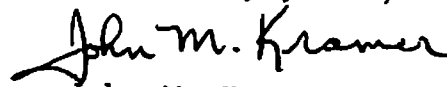

Certified Speedometer Service, Inc. has been in business since 1981 and presently serves over 250 police departments in New Jersey. In addition, work is performed for county, state, and federal government agencies, and departments out of state as well. The undersigned owned the Superior Speedometer Service from 1967 until its transfer of ownership in 1974.

Training in speedometer calibration has been provided by the Stewart Warner Corporation and the Bear Automotive Company. The equipment used is a dynamometer which accurately checks speedometer operation. In addition to in-shop checks, the equipment is verified by the manufacturer on a timely basis and has been checked for accuracy by the N.J. Division of Weights and Measures.

Courts in New Jersey have generally accepted speedometer calibration certificates satisfying the state vs. Wojtkowiak decision and as a business record of the police department under the Rules of Evidence 63 (13).

If I can be of any further assistance in this matter, please do not hesitate to call.

Very truly yours,

John M. Kramer
President.
